Letter of support

With reference to the "Letter of interest" from Swedish University of Agricultural Sciences, SLU, June 15 2012, signed by Vice-Chancellor Lisa Sennerby Forsse, I hereby would like to express Sveaskog support for Sweden and SLU to host the XXV IUFRO World Congress 2019.

Should this come about, Sveaskog would be happy to take active part in the event in order to contribute with our knowledge and practical experiences of different aspects of sustainable forest management. Our forest holdings are distributed throughout Sweden and we would be able to engage in arrangement of excursions where desirable.

Göran Persson

Chairman of Sveaskog
