Letter of support

With reference to the “Letter of interest”, Swedish University of Agricultural Sciences, SLU, June 15, 2012, signed by Vice-Chancellor Lisa Sennerby Forsse, I hereby confirm that The Swedish Forest Industries Federation, SFIF, strongly support Sweden and SLU to host the XXV IUFRO World Congress 2019.

Should this come about, SFIF and its forest owning member companies are also prepared to take active part in arranging field trips focusing on the Swedish Forestry Model and sustainable forest management and the forest-based sector as key actors and enablers of the bio-based society. Our member companies are spread all over Sweden and will be able to arrange field trips from southern Sweden to the very north.

Yours sincerely,

Mårten Larsson
Senior Vice President Forestry
Head of Industrial Policy Department
