### **Letter of Support to the Swedish proposal to host the XXV World Congress of IUFRO**

With reference to the "Letter of Interest" from the Swedish University of Agriculture Sciences, signed by Vice-Chancellor Lisa Sennerby Forsse, WWF-Sweden would like to express support for Sweden and SLU to host the XXV IUFRO World Congress 2019.

WWF-Sweden and the WWF Network would be happy to take active part in the event in order to contribute with our broad International experience from grassroot project implementation, market transformation and policy development and change.

WWF-Sweden do also see the World Congress as an opportunity to highlight and share the "pros and cons" of the "Swedish Forestry Modell" which could be of interest for the scientific community as well as decision makers.

Yours Sincerely,

Håkan Wirtén  
Secretary General  
WWF-Sweden

Peter Westman  
Conservation Director  
WWF-Sweden
